Proudly Australian made and exported

Space:Maker Slimline™

Sliding Wardrobe Door System

Features

- round, modern appearance.
- concealed convex 41mm diameter rollers and brackets for quiet operation and ease of adjustment
- head guide device prevents door panels from jumping off the track
- matching infill buffers on grip stile
- Continuous finger grip on all panels
- foot-friendly, easy-to-clean track
- solid bottom rail facilitating a fully concealed roller assembly
- 10-year guarantee on frame and components
- slimline tracking and jambs only measuring 57mm in width.

Design Flexibility

Made to suit your individual requirements. **Space:Maker Slimline™** wardrobes are suitable for either wall to wall or corner return installations. Constructed from high quality aluminium extrusions, **Space:Maker Slimline™** is designed to suit most situations and ceiling heights up to 2.4 metres. The continuous finger grip on all door panels provides additional strength and ease of use.

Exceptional Value

Indulge your imagination and create an absolutely premium wardrobe design at a surprisingly affordable price.

Safety

Space:Maker Slimline™ Sliding Wardrobe Door System is glazed to comply with the requirements of Australian Standards AS 1288 and AS 2208.

Product Guarantee

Space:Maker Slimline™ components and frames carry a 10-year guarantee when used under normal operating conditions.

10 YEAR GUARANTEE

Perfectly Secure Panels

Innovative head guide feature, which is incorporated in a panel screw-fixing design, ensures the panels cannot jump the track and provides quiet rattle-free operation.

Modern Contoured Cushioning

Matching infill buffer with grip stile eliminates metal-to-metal contact and gives **Space:Maker Slimline™** a smooth, modern contoured appearance.

Low Profile Bottom Track

Space:Maker Slimline™ with its foot-friendly, unobtrusive, low profile design and easy-to-clean track, roller side-play is virtually eliminated, producing a smoother sliding operation.

Concealed Convex Roller

Large 41cm diameter convex rollers and strong galvanized metal adjustment brackets, which are rebated and concealed in the door bottom, ensure quiet operation and allow for out of square adjustment to be made with the turn of a screwdriver.

Panel Variety

Space:Maker Slimline™ is available in clear or tinted anti-shatter, safety-backed mirror panels, plus a wide range of wood grain or vinyl finishes. Plain panels for painting or wallpapering are an alternative for the do-it-yourself enthusiast.

Solid Bottom Rail

Together, the solid bottom rail and V-grooved bottom track provide strength and durability, virtually eliminating roller side play, producing a smooth sliding operation.
